## Grace to Korea

2014 Endorsement

I have spent the greater part of my ministry defending the inerrancy, authority, and sufficiency of the Word of God. There was a time when the assault on Scripture came predominantly from those outside of the church. Today, however, the Bible is under attack even by those who claim the name of Christ. In seemingly every aspect of church ministry, professing Christians are abandoning a firm stance on Scripture and looking to every worldly philosophy and pragmatic psychological technique to accomplish only what the sufficient Scriptures can. “We do not preach ourselves,” said the Apostle Paul (2 Cor 4:5). And yet contemporary church leaders arrogantly cling to religious showmanship and personality-cult celebrityism that has always marked the opponents of biblical truth.

The great need of this hour in church history is a return to the clear, unashamed proclamation of the unadulterated Word of God. And that is why I am so encouraged to hear of the formation of *Grace to Korea* ministry, which shares my commitment to the sufficiency of Scripture for all of life and ministry. These dear saints are unswervingly dedicated to expository preaching, biblical counseling, and the priority of sound doctrine in church ministry. Their devotion to a biblical philosophy of ministry, along with the resources they provide and the fellowship they foster, are a welcome addition in the battle to guard the truth that has been entrusted to us. It is my joy and privilege to recommend this ministry to you.

Yours for the Truth,

John MacArthur
